DAM, DIKE, OR OTHER DEVICE COMPLAINTS (N.D.C.C. § 61-16.1-53):

The District will determine if a landowner or tenant constructed a dam, dike, or other device without first securing a construction permit as required under N.D.C.C. § 61-16.1-38, or in conflict with the terms or conditions of a construction permit. North Dakota Administrative Code § 89-08-01-01 defines "other device" as "a water control structure, other than a dam or dike, including diversions and holding ponds, lagoons, or dugouts."

DRAINAGE COMPLAINTS (N.D.C.C. § 61-32-07):

Surface Drainage: The District will determine if a landowner or tenant constructed any surface drainage that impacts a watershed area of 80 acres or more without first securing a drainage permit as required under N.D.C.C. § 61-32-03, or in conflict with the terms or conditions of a drainage permit.

Tile Drainage: The District will determine if a landowner or tenant constructed or installed a tile or subsurface drainage system with a footprint of 80 acres or more without first securing a tile or subsurface permit as required under N.D.C.C. § 61-32-03.1, or in conflict with the terms or conditions of a tile or subsurface permit.

OBSTRUCTION TO DRAIN COMPLAINTS (N.D.C.C. § 61-16.1-51):

The District will determine if a landowner or tenant has intentionally or negligently caused an obstruction to a natural watercourse or drain.

The District must act pursuant to the appropriate code listed above. The District shall investigate and make a determination within a reasonable time (not to exceed 120 days for dams, dikes, other devices, or drains). The District shall notify all parties of its decision as required by code. If complained of activity was a dam, dike, other device, or drain, the District's decision may be appealed to the Department of Water Resources within 30 days of the District's decision. If the complained of activity was an obstruction to drain, the District's decision may be appealed to District Court.
